

The no call list means just that. We do not want to be bothered in our short free hours after working a huge number of hours on our jobs and with all of the other activities we would like some time to rest and not answer the telephone every 5 minutes to hear about this product or that charity. If I want a service I will pick up the telephone and call to order it or go out and purchase it. If I want to donate to a charity I will. Thank you. Jeanette Nowakowski
